### New 2018 Beta:

A new better late than never version is on the 2018 beta branch. You will need to switch to this "2018\_beta" branch to play this update. Once enough people confirm that it works as intended I will graduate it to live.

If you play this please give feedback on if you notice it being better. Maybe create a new profile to test with if you feel up to it.

The changes specifically:

- \* The chance for all eggs to drop is much higher now. Shouldn't be too high to make the egg hunt unfun, but let me know if it's too high or not.
- \* After you purchase the Tree of Life powerup the drop rates for eggs go even higher to prevent the need for endless grind. So if you already have Tree of Life powerup unlocked you can enjoy the even higher rates. There is no tool tip for the powerup for this effect but it is in game.
- \* Egg shop removed. It's more fun to get eggs in game than buy them.

If you previously played but never got the last egg achievements and lost your save (or played the older beta with egg shop and got a glitch) you can download this save to use to complete the last two achievements:

<https://www.subsoap.com/temp/FaerieSolitaireClassicSavegame.zip>

Put the files in the folder in the zip in your C:\Users\Username\AppData\Roaming\Faerie Solitaire

This update is unfortunately still only for Windows for technical reasons. It would be possible to make new Mac/Linux builds but I will need to rewrite some of the dependencies this version of the game uses which have only Windows versions. Maybe in 2019.

For anyone who got all of the eggs in the original version, just know you beat RNGesus.

This is still not the final update to this classic version but I'm still pressed for time so I'll have to budget more time in 2019 to make some more changes and quality of life updates before the final update for this game is released.

I will also encourage people to play the Remastered version once we get the engine rework released for it. Should be Soon(TM).

Oooo, shiny!

#### **. Faerie Solitaire Dire:**

We've been working on a new game called Faerie Solitaire Dire which is focused on the new mechanics found in the Challenge mode of Faerie Solitaire Remastered. The goal of Dire is to make a solitaire game which is not easy... instead Dire is very challenging and has a darker yet still magical theme!

If you buy the current version of Faerie Solitaire Dire from us you will get access to DRM free installers as well as get a Steam key once Dire is released on Steam. We'll be releasing at least a few more big direct updates for Dire before publishing on Steam.

🌈 . **NEW: Wishlist Faerie Solitaire Harvest!:**

This year we will be publishing many new games, and the first new one being released by us is Faerie Solitaire Harvest! This kind of solitaire is a less commonly seen one, and we wanted our version to be the very best version of it in the world.

The release date for FSH is official and will be this Easter! That's 53 days from now as of this post.

[https://store.steampowered.com/app/348910/Faerie\\_Solitaire\\_Harvest/](https://store.steampowered.com/app/348910/Faerie_Solitaire_Harvest/)

Please wishlist, and share with your solitaire / card game loving friends! Steam seems to care about wishlists on launch of games and anything over 10k wishlists seems to be included in recommended lists so every wishlist counts. Your wishlist matters!

If you wishlist you'll be notified the moment it is released, and any time it's on sale if you want to wait for a deal.

FSH is only the first new game being fully released this year. There will be more too, many long in development! 🐸

P.S. If you're owed a Steam key for this you will be able to get one from us once it releases. Please wishlist anyway!
